

# K10450 / G2 COMPRESSION SHORT SLEEVE TOP

COMPRESSION

**FABRIC** 84% POLYESTER, 15% ELASTANE, 1% SILVER

**SIZE** XS-5XL

**COLOUR** NAVY

Ventilating mesh panel at centre front – base of neck.

Raglan & upper sleeve seams shaped to support the deltoid shoulder muscle.

Contoured chest seams create support for the pectoral muscles.

Ventilating mesh panel at centre back shoulder.

Shaping & placement of upper back panel to “x” core support – improving posture and muscle alignment.

Contoured sleeve seams wrap and support triceps & elbow.

Side back panels support lat muscles.

Ventilating mesh panel along centre back (sweat region).

Four-needle flat lock seams with combination of tonal & contrast thread.

 THERMO-ACTIVE™
